

KUMAR GYANAM

Chief AI Architect | AI Strategy Leader | Generative AI | Agentic Systems | Enterprise AI Transformation
Gurgaon, India | +91 9953682525 | gyanamc@gmail.com | [linkedin.com/in/kumar-gyanam](https://www.linkedin.com/in/kumar-gyanam) | github.com/gyanamc | [AI Portfolio](#) | [AI Resume](#)

EXECUTIVE SUMMARY

Transformational AI Leader with 20 years of experience architecting enterprise-scale AI systems across fintech, healthcare, and media. Specialist in sovereign, on-premise Generative AI for regulated environments — builder of India's first air-gapped Agentic RAG platform, now serving 22M+ users at 99.9% uptime with zero third-party data exposure. Trusted C-suite advisor and board-level roadmap owner; Guest Faculty at IIM Indore and ISB for Executive MBA programmes; builder of 30+ production AI systems spanning Agentic RAG, LLM fine-tuning (LoRA/PEFT), multi-agent orchestration, and enterprise automation.

TECHNICAL EXPERTISE

Agentic AI & Orchestration: LangGraph (Stateful Agents), LangChain, n8n, Agentic RAG Workflows

LLM Inference & Serving: vLLM (PagedAttention), Ray Serve, GPT-OSS 20B, Mistral 7B, Gemma 7B

LLM Fine-Tuning: LoRA, PEFT — domain-adaptive fine-tuning of open-source models on proprietary enterprise data

Embedding & Vector Search: all-MiniLM-L6-v2, Elasticsearch kNN, Semantic Retrieval

Guardrails & Safety: Guardrails.ai (Pre/Post), PII Detection, Toxicity Screening, Hallucination Validation

MLOps & Observability: MLflow, Ragas (RAG Evaluation), Airflow, Prometheus, Grafana

Infrastructure & Platforms: On-Premise GPU Infrastructure (NVIDIA A40, DXC Technology), Docker, Kubernetes, AWS, Firebase

APIs & Automation: FastAPI, n8n.io (Expert — 30+ workflows), REST, Python

PROFESSIONAL EXPERIENCE

Deputy Vice President — Generative & Agentic AI April 2023 – Present

SBI Card | Gurgaon, India

Scope: Owns and leads the Generative & Agentic AI function — a cross-functional team of 15+ spanning internal engineers, data scientists, and vendor partners (DXC Technology for on-premise GPU infrastructure). Accountable for multi-million dollar AI procurement, vendor evaluation, and board-level AI roadmap.

Sovereign On-Premise Agentic RAG Platform

Architected and operationalised a secure, air-gapped RAG ecosystem — the first of its kind in Indian fintech — ensuring 100% data sovereignty and financial-grade security.

- Scaled to 22M+ users and 21M+ monthly transactions at 99.9% uptime SLA, with zero third-party data exposure
- Integrated 45+ enterprise components including LangGraph/LangChain for stateful multi-agent orchestration, vLLM for high-throughput inference, and Ray Serve for distributed model serving on NVIDIA A40 GPUs
- Deployed GPT-OSS 20B, Mistral 7B, Gemma 7B with intelligent routing: Mistral for <500 token tasks, GPT-OSS for 24k-token long-context workloads, Gemma for structured reasoning
- Applied LoRA-based fine-tuning (PEFT) to open-source models, enabling domain-adaptive learning on proprietary SBI Card data without exposing training data to third-party infrastructure
- Implemented Guardrails.ai pre/post pipeline — PII detection, toxicity screening, prompt injection prevention, and hallucination validation across all model interactions in multiple languages
- Established continuous evaluation loop using Ragas and MLflow — achieving faithfulness score of 0.90 and relevancy score of 0.94 across 22M+ user interactions; used for ongoing model selection, prompt tuning, and latency observability

Strategic Business Applications

- SBICard.com Web Search Revamp — Re-architected website search using Generative AI-powered semantic search, replacing keyword-based lookup with intent-aware contextual retrieval, significantly improving product discoverability and customer self-service rates

- SBI Card Offers Reinvention with RAG — Built a RAG-powered offers recommendation engine dynamically surfacing personalised card offers based on customer spending patterns, directly contributing to 400% growth in AI-driven bill payments
- Generative AI Assist for Customer Care — Deployed a real-time AI co-pilot for customer care agents generating contextual, policy-compliant responses during live interactions, achieving 75+ FTE cost savings and reducing Average Handle Time
- SBI Card Internal GPT for Developers — Built a secure, air-gapped internal GPT portal enabling engineering and product teams to interact with internal codebases and API documentation without data leaving the perimeter

Leadership & Governance

- Authored the board-approved AI roadmap driving enterprise-wide AI transformation strategy
- Led multi-million dollar AI procurement, vendor evaluation, and ecosystem partnerships across DXC Technology, NVIDIA, and specialist AI vendors

Analytics Delivery Head January 2022 – April 2023

Brane Group

Led a 45-member cross-functional analytics and engineering team delivering production AI/ML systems for global clients across healthcare, fintech, and ad-tech verticals.

- Architected ML-powered solutions: ambulance dispatch optimisation (healthcare), fraud detection (financial risk), and campaign ROI optimisation (ad-tech)
- Owned full project delivery lifecycle — from client discovery and solution architecture through to model deployment and handover — across multiple concurrent engagements
- Established delivery standards and engineering practices for the analytics function, reducing project cycle time across the team

Head of Technology Architecture January 2019 – January 2022

Pixstory

Led technology architecture and product engineering for a social media platform, managing cross-functional delivery across ML, backend, and product teams.

- Built a custom ML-based recommendation engine from scratch, achieving 180% improvement in user engagement
- Architected semantic analysis and automated tagging workflows processing 1M+ posts
- Led technical product strategy and go-to-market execution supporting 100K+ user acquisition

Chief Manager — Business Intelligence July 2009 – January 2019

The Indian Express

- Transformed subscription architecture and built predictive analytics for collection management
- Reduced user detractors by 50% through text mining and continuous consumer research

Earlier career: Sales Manager, Axis Bank (Aug 2008 – Jul 2009); Sales Manager, ICICI Bank (Jun 2006 – Aug 2008)

KEY ACHIEVEMENTS

22M+ users on sovereign conversational AI platform **99.9% uptime** SLA at production scale

400% growth in AI-driven bill payments

75+ FTE saved via AI automation **45+** enterprise components integrated **30+** production AI systems shipped

PRODUCTS SHIPPED

Agentic AI Resume — Interactive AI portfolio where recruiters can converse with career history, run JD match analysis, and view live architecture diagrams. agentic-ai-resume-production.up.railway.app

AI Job Assistant (Chrome Extension) — Agentic AI Chrome extension for real-time job analysis, CV tailoring, and application assistance. Live on Chrome Web Store.

Live AI Portfolio — 30+ production AI systems across Agentic RAG, LLM fine-tuning, automation, and enterprise GenAI. ai-showcase-site-production.up.railway.app

Open-Source & Public Code — Public repositories across Agentic AI, RAG systems, and automation workflows. github.com/gyanamc

THOUGHT LEADERSHIP

Active LinkedIn author covering Generative AI, Agentic systems, sovereign AI architecture, and enterprise AI transformation. Writing draws on hands-on production experience — topics include LLM fine-tuning trade-offs, RAG evaluation frameworks, on-premise AI for regulated industries, and multi-agent orchestration patterns.

EDUCATION & ACADEMIC LEADERSHIP

IIM Indore — Guest Faculty, AI Strategy, Technology Leadership & AI Governance

Executive MBA programme; 100–200 students per cohort (Ongoing)

ISB (Indian School of Business) — Guest Faculty, Generative AI for Business & Responsible AI

Executive MBA programme; 100–200 students per cohort (Ongoing)

IIT Madras — Advanced Diploma in Programming

Selected via competitive entrance — 1 of ~1,000 admitted from 60,000+ applicants (top 1.7%); completed Semester 1; discontinued due to professional commitments

IIM Calcutta — AI-Powered Marketing (2021 – 2022)

IRM — MBA, Marketing & Strategic Management (2004 – 2006)

Ranchi University — B.Sc., Mathematics & Statistics (2001 – 2004)
